3. 'Players'

This is the location where you input the Players that will play for the Team.

Just add the Player details as shown below-

2015/16 Leagues

Players

Note: Apart from adding players, you can of course edit them. The ability to edit players is so that spelling mistakes can be corrected. Do not everwrite one player with another. Each player is linked to his or her nomination lists and matches, as well as the Ranking system, and if you change the identity of a player, you will break the system. Just because a player is no longer a member of your club or does not play in teams anymore, does not require you to remove them. You can, however, "hide" them, in which case they will not appear in any nomination list drop-down selections.
